

## MICHE Left/Right Game

Welcome to the **Left/Right** game!

WOW! I can't believe how amazing this purse is! I was introduced to MICHE **right** when I **left** a knock-off purse party. Are you ready to hear how this purse has **left** others like you in love? I instantly fell in love & was **left** amazed with how awesome this purse really is!

MICHE came about from a lady named Michelle who loved her purse. She carried it **left & right** wherever she went. One day she was driving, turned **right** then **left**, and spilled coffee all over her favorite purse. She was **left** in tears! She knew if she went back to the original place she got it, there would be none **left**, so she decided to cut the fabric off of it **right** away and came up with the idea of inventing MICHE. Creative, **right**? MICHE is "One Bag with Endless Possibilities" **Right** now there are 3 base bags available. The mini, the classic and the big bag! You wanted more options **right**, you got it!

The bag requires interchangeable shells to make the purse. MICHE has multiple shells to match every outfit instead of being **left** buying a purse for every occasion! There are over 40 MICHE shells **right** now that come in various colors & patterns. Fun, stylish and all in 1-2-3, **right**?

MICHE shells are retired monthly as new shells come out, so don't have your favorites be **left** behind. Sign up for my email list and I will email you **right** when new shells are released. MICHE Bag also multiple accessories from wallets, charms, handles to organizers, to allow you to create your bag to your style! Another great idea, **right**?

Thank you everyone for coming to \_\_\_\_\_show. \_\_\_\_\_ scheduled her show at the **right** time; **right** when new shells were just released!
